

# Granite Bay Cosmetic Surgery Welcomes a Personal Touch

COURTESY PHOTOS

Dr. Christa Clark and the entire Granite Bay Cosmetic Surgery staff want to empower you on your journey to be your best self! Joining the cutting-edge team is Dr. Haley Bray. She is dedicated to enhancing patients' naturally beautiful facial structure and helping them achieve goals with experienced expertise, warmth, and compassion.

Originally from St. Louis, MO, Dr. Bray, supported by her close-knit family,

began her medical career graduating from the University of Missouri-Kansas City with a BA/MD in 6 years. She continued for the next five years in residency at Saint Louis

Dr. Bray brings experienced expertise, warmth, and compassion to every consultation.

University for Otolaryngology - Head and Neck Surgery (ENT/Ear, Nose, and Throat) and then completed an American Academy of Facial Plastic and Reconstructive Surgery Fellowship (AAFPRS) in Roseville and Beverly Hills, CA with Dr. Jonathan Sykes.

While in town, she connected with Granite Bay Cosmetic Surgery, during an ENT call, surgically repairing a mandible fracture. The anesthesiologist thought Dr. Bray would be a great addition to the practice and connected her and Dr. Clark. One thing led to another and now Dr. Bray is bringing her expertise and meticulous skillset to the practice. With an in-depth knowledge of facial structures and tissues, her focus is on facial plastic surgeries, primarily cosmetic including facelift, rhinoplasty, otoplasty, blepharoplasty, browlift, lip lift, buccal fat removal, chin augmentation, scar revision, mole removal, earlobe repair as well as non-surgical procedures such as neuromodulators - Botox and Dysport, fillers, lasers and more.

Practicing medicine is a family affair for Dr. Bray. Her mom, Debra, is a retired radiologic technologist, who stayed home and supported her dad, a practicing anesthesiologist, along with Dr. Bray, and her two brothers. One of which is in the medical field as well.

As a family, they've practiced Tae Kwon Do for about 20 years and hold varying black belt degrees. Being a third-degree black belt herself, Dr. Bray has proven she can hold her own both inside the O.R. and out!

After growing up snowboarding in the Colorado mountains, having Tahoe close by means she can enjoy snow sports, wakeboarding, hiking, and of course great food and wine! She is a big fan of being physically fit and at one point instructed a trampoline fitness class. Traveling is another beloved pastime. In addition to completing an international facial plastic surgery residency rotation in Madrid, Spain, she has fond memories of visiting Australia, Austria, England, France, Italy, Honduras, Ghana, and Mexico. She is excited to see where travels take her next, but for now, she is enjoying exploring all that California has to offer and hanging out locally with her beloved Chihuahua Bella and cat Zoe.

Dr. Bray is excited to bring her personal approach to GBCS and her patients. Her perspective on consultations is that they are a safe place for patients to feel comfortable sharing their true concerns.

"I share my professional opinion on which procedure would optimize the results they are looking for," Dr. Bray said. "My goal is to help patients feel more confident in their appearance and other aspects of their life. I strive to personalize their look and achieve natural results."
